## First time in Malaysia

Aroma that spreads in your mouth.  
The texture is crisp and chewy.  
Pure buckwheat Soba, where you can taste  
all the original taste of the buckwheat,  
is now available in Malaysia. Please try our  
carefully selected JYUWARI-SOBA.

The buckwheat seeds used for soba and the buckwheat fields.

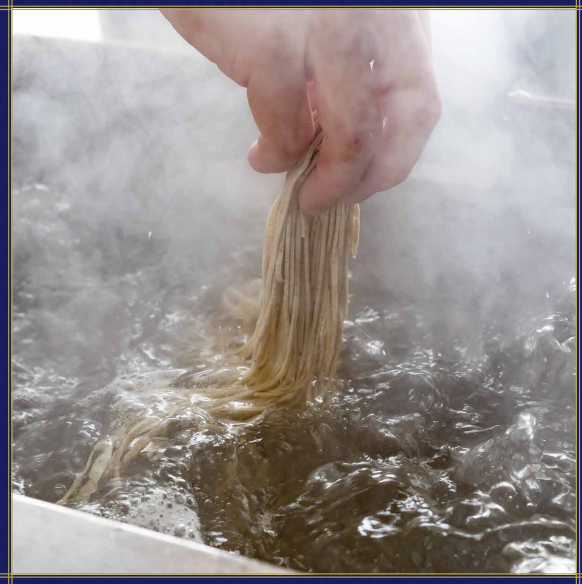

# From the Fuji headwaters to the world

We want to convey to the world the flavour, tradition and culture of Japanese Shizuoka, which has benefited from the bounty of nature.

Gennendo's soba noodles are made using techniques developed at the foot of Mt Fuji and offer a taste of Japan itself.

## Focus on freshness

Soba flour directly from Japan is made to order and put into the pod.

We serve freshly ground, freshly crafted and freshly boiled JYUWARI-SOBA

## Focus on the dipping sauce

Soba broth made with carefully selected dashi. Enjoy the soba-yu after finishing your meal.

### Mori

Our signature cold soba, with its aromatic noodles and smooth texture.

### Kake

A warm bowl where the broth's aroma and noodle flavor spread throughout.

### Tempura

Crispy tempura that captures the essence of the season, served with soba.
